

SEPTIC SYSTEM FAILING? NEED TO REPLACE A CESSPOOL?

Rhode Island Infrastructure Bank
can help

- The Community Septic System Loan Program (CSSLP) provides low-cost loans to homeowners to repair failed or failing septic systems.
- Homeowners can also use CSSLP to replace a cesspool with a septic system.
- Loans with a repayment term of up to 10 years are available to residential property owners.
- Maximum loan amount varies by community.

Failing to comply with Rhode Island's septic system regulations can result in fines – avoid these costs by financing your septic system repairs with CSSLP.
